

Seal Coat Project

We are scheduled to begin repaving the roads next week. Minor repairs will be happening this week to prepare. On your scheduled day, you will need to have all cars removed from the area by 8AM. If they are not removed, we will have them towed at your expense. You will need to stay off of the section for 48 hours. You can park in other sections guest spots, the pool area or out on Atlanta- as long as they are not getting paved. We need everyone's cooperation to make this work. Reach out to neighbors and offer parking if you have extra. We will remind you the night before. Below is the schedule (pending any weather issues). Any questions or concerns, please call Associa. Thank you for all your assistance.
